**BIOGRAPHY:** My music taste is all over the place. Great harmonies of the Gaither Vocal Band, the Eagles, Pentatonics, even Barber Shop Quartets. Then there is the rock and roll thing, yeah, I did that, and I like most of them still. Old country was never my favorite with the beer drinking cheating songs, but I do like the Country love and patriotic songs. I find that entertainers are not confined to a specific genre of music. I love the family life. I choose to make the audience laugh, be happy, and encourage them to live life to the fullest. I have convicting and sad songs, but that is for another place, another time.
